

## April Newsletter!

We at WebintMaster greatly appreciate your joining our community! We would like to hear your input regarding this newsletter, our website, and social media platforms. Following are our best Tools, Hacks and Case-Studies from this past month. We also included some special content just for you, enjoy!

---

### Hacks & Methods

#### [Guide of the Month](#)

#### [Competitor Research – Looking Under The Hood](#)

This post explores Key Indicators, tools, and methods for identifying competitors' new business activity, sometimes a few months in advance to the official launch or announcement. The indicators that will be investigated are: Offices, Employment, LinkedIn Activity, Meeting & Events, Marketing, Domain Research, Github & Stackoverflow and Code Snippets search.

#### **OSINT & WEBINT Hacks**

- [How To Find A Person Behind An Email](#)
- [How To Exploit Facebook's Image Recognition Algorithm To Find Photos](#)
- [How To Hide My Email address – 3 Ways](#)
- [How To Download Videos from Facebook](#)
- [How To Find A Company's Legal Business Name](#)

## Recommended Tools

### WhatsApp Tools

- [WhatsApp Online checker](#) - Identify which phone numbers are active and those that are not able to receive WhatsApp messages.
- [WhatsAllApp](#) - Chrome Extension that creates a UI overlay for WhatsApp Web to enumerate phone numbers, profile pics, and about texts.
- [whatsfoto](#) - Simple tool to download multiple profile pictures from WhatsApp. It's an extension for Chrome.

### Private Search Engines

- [DuckDuckGo](#) - Get seamless privacy protection on your browser.
- [Discrete Search](#) - The Discrete Search encrypts your search terms between your computer and discretesearch.com.
- [Whoogle Search](#) - A self-hosted, ad-free, privacy-respecting metasearch engine.

### Telegram Tools

- [Buzz.Im](#) - Search in open Telegram messages.
- [ChatBottle: Telegram](#) - A large depository for chat bots.
- [Informer: Telegram Mass Surveillance](#) - Informer (TGInformer) is a bot library that allows you to masquerade as multiple REAL users on telegram and spy on 500+ Telegram channels per account. Details are logged to a MySQL database, a private Google Sheet, and your own private channel for analysis.

## Market Researcher

Automatically scan various sources for Company Details, Person Contacts, Social Analysis, Market Trends and more!

[Add to Chrome](#)

## Case Studies

- [The dark side of open-source intelligence](#). Internet sleuths have used publicly available data to help track down last week's Washington D.C. rioters. But what happens when the wrong people are identified?
- [OSINT Market Latest Technology Advancements, Growth and Future Scope 2021 to 2026](#).
- [CIA Open Source Center monitors Facebook, Twitter, blogs](#)  
This article is old but still a good read.

## Announcements

- We are happy to announce that we have launched our new project - [Tradint](#) (Trade Intelligence). We specialize in teaching market research to stock traders and investors. Our first course is available now at a discount for early registers!
- The site and course are currently in [Hebrew](#), we will update you regarding the English versions next month. We're also about to launch our Tradint

Dashboard which will help investors with their research, stay tuned!

- Check it out on Facebook <https://www.facebook.com/TradintMaster/> or on our website - <https://www.tradint.co.il/>
